You could send this along to the tribe. Also, you might want to talk to David Horak regarding other possibilities for funding. Thanks!

Dean,

I just received this from Shane regarding funding for Bad River's defective valve. I did a quick search and found the following link to EPA funding: http://water.epa.gov/grants_funding/

Let me know how you want to proceed.

Subject: Bad River Birdh Hill Wastewater Facility

Good Morning Ken,

I was recently at Bad River and they are still having problems with the transfer valve at the Birch Hill Lagoon. They mentioned you may know of a funding source to assist them in funding the replacement of the valve. If so, can you forward the information and I will follow up on it with them? Thanks!
